ALEX MORGAN

Bengaluru, India | alex.morgan@example.com | +91 90000 12345 | linkedin.com/in/alex-morgan | github.com/alex-morgan

PROFESSIONAL SUMMARY

Entry-level machine learning and data science enthusiast with hands-on project experience in Python, data preprocessing, exploratory analysis, and model evaluation. Interested in building practical, reliable data products and communicating findings clearly. This is a fictional sample resume for testing resume-screening software.

TECHNICAL SKILLS

Languages	Python, SQL
ML & Data	scikit-learn, pandas, NumPy, TF-IDF, classification, model evaluation
Tools	Jupyter Notebook, Git, VS Code, Matplotlib, Seaborn

PROJECTS

Resume Category Prediction | Python, scikit-learn, Streamlit

Built a prototype that extracts text from PDF, DOCX, and TXT resumes, cleans text, transforms it with TF-IDF, and predicts a job category using a trained classifier. Added error handling for unsupported files and empty extracted text.

Movie Recommendation Prototype | Python, pandas, scikit-learn

Prepared a small content-based recommendation workflow using text features and similarity scoring; evaluated outputs with example inputs and documented limitations.

Exploratory Data Analysis | Python, pandas, Matplotlib

Cleaned a tabular dataset, summarized missing values and distributions, and created visualizations to identify patterns for further investigation.

EDUCATION

B.Sc. / B.Tech. in a Relevant Field (Sample) | 2023–2027

Example University, India — replace this placeholder with real education details.

ADDITIONAL

Strengths: analytical thinking, problem-solving, documentation, teamwork, and continuous learning. Languages: English and Hindi.
